Come and have your say on the new proposals

Planning application 2021/0512/FULM seeks permission for 45 no. dwellings with associated infrastructure. Following comments received Hoover Homes are now looking to revise the scheme to deliver 29no houses including 24no private market and 5no affordable dwellings. The changes are such that they likely will require a new planning application.

The proposed development will include public open space, landscaping, a substation and other infrastructure required to support the development proposed.

Given a new application is likely we are seeking the local communities' views on the proposed design, layout and mix prior to the submission of this application to the local planning authority. We hope you can look to support this alternative scheme.

We look forward to seeing you there and the development team will be on hand to answer any questions you may have on the day.

Feedback forms will be available on the day with any comments on the new development can be sent to the email address planningnorthern@stantec.co.uk.
